

BACK TOGETHER

I'm glad you made a choice
Though I think it came too fast
What-ever
We're back together

Time passes with the wind
Soon we'll be both red scinned
The weather
Is not an issue anymore
Forget it

I just hope your choice was wise
Shouldn't be a compromise

**Together
To be together**

You seem to be alright
I think it's good we had this fight
What we talked about
Really had to be said out loud

Now we're in love again
It's not enough to be best friends
I'm relieved to know
That it was all not just a show

I just hope your choice was wise
Shouldn't be a compromise

O-oh o-o-oh,
I'm so glad to know
That I can count on you
You can count on me
It's not always easy
But it feels so good
We're free to be

**Together
To be together**

I'm glad you made a choice
Though I think it came too fast
What-ever
We're back together
We're back together
We're back together
