

**CAN'T YOU DECIDE**

At first you made me sure about myself  
You showed me how to be confident  
No doubt in what I'm doing  
Be okay with when I'm fooling

You needed time  
Fine with me

Weren't sure who you wanted to be  
You tried to start a single life  
Then I showed up  
Like a thief without knife

**Can't you decide  
What's wrong or right  
Cause I'm part of it  
Don't wanna feel like shit**

**Can't you decide  
What's wrong or right  
Cause I'm part of your thought  
And that's kind of hard**

Everytime when you're not in a good mood  
You think our relationship ain't any good  
Make me feel like I'm a nasty little thing  
Then you suddenly open the box with the ring

At first you made me sure about myself  
You showed me how to be confident  
No doubt in what I'm doing  
Be ok with when I'm fooling

**Can't you decide  
What's wrong or right  
Cause I'm part of it  
Don't wanna feel like shit**

**Can't you decide  
What's wrong or right  
Cause I'm part of your thought  
And that's kind of hard**
