

HIGH WAVE

Deep in the ocean
I'm on a boat
And I lost my way
I called him three times
But hung up
Before he heard me crying
It was just a conversation
And you said the things you wanted
I hadn't seen this coming
And I was fine without knowing

**I'm on a high wave
Trying to get water out of my boat
The water's rising
And I haven't seen the coast for days**

My paddle's broken
And my hat is not as warm as I thought
Deep in the ocean
My friend called me but I just hung up
It was just a conversation
And you said the things you wanted
I hadn't seen this coming
And I was fine without knowing

Heeey, heeey
Deep in the ocean
I'm on a boat
And I lost my way
I called him three times
But hung up
Before he heard me crying

**I'm on a high wave
Trying to get the water out of my boat
Deep in ocean
My friend called me but I just hung up**

I'm on a high wave
I'm on a high wave
I'm on a high wave
I'm on a high wave
