

HOLD YOUR HORSES

I've always been thinking
But never found out
So I started drinking
To forget all about

You sent me this note
I shouldn't take it too hard
That's when I found out
Bout my broken heart

You left me with nothing
But all I could gain
Was an old, broken wing
I wanted to loose anyway

**Hold your horses
I'm not coming over
Park your car
Get a landrover**

**Hold your horses
I'm not coming over
Park your car
Get a landrover**

I sent you this song
Your heart fell apart
You answered with a screw
To fix my broken heart

I soon changed my mind
It didn't take long
To finally find
The right ending for this song

**Hold your horses
I'm not coming over
Park your car
Get a landrover**

**Hold your horses
I'm not coming over
Park your car
Get a landrover**
