

I MISS YOU

Conversation's rare these days
Trying my best to be satisfied
With a broken „Hello“

Left my bag in the staircase
Door is open
I'm amazed
Bout the mess you left behind

**I miss you
Most of the time
But when you're here
It seems like
You're with someone**

**I miss you
Most of the time
But when you're here
It seems like
You're with someone else**

I can tell
There's more than there is
As we drown
In bad memories
That we could put aside

Let's be honest
I have been
More than truthful
Wearing my heart on my sleeve

**I miss you
Most of the time
But when you're here
It seems like
You're with someone**

**I miss you
Most of the time
But when you're here
It seems like
You're with someone else**

Ooh
Ah ah
Ooh
Ah ah
