

**IN YOUR HEART**

I sat there in a dark room  
And surprisingly  
You came up to me and  
Told me it will be you doing the lights  
And if by any chance  
There was a color I didn't like

**Could I be there with you  
In your heart  
In your heart  
Could I be there with you  
In your heart  
In your heart**

You came back  
With a hand full  
Of signs for me to embed me into  
Your arms  
You spread your full charms  
On this warm and light  
December night

**And I'll be there with you  
In your heart  
In your heart**
