

## **I'VE GOT SOMETHING**

I've got something in front of me  
It's meant for you  
You can have it if you want

Come to me this afternoon  
And you will see  
That everything's just as it used to be

The birds will sing  
The cars will stop  
Not interrupt  
Lovely music's gonna fill the air

But real soon one of us will say  
I cannot stay  
Cause something makes me feel  
I'm going back

Going back...  
Going back...

I've got something in front of me  
It's meant for you  
But soon I'm gonna give it to  
Someone else

Someone else...  
Someone else...
