

**MY LOVE WON'T WAIT FOR YOU**

My love won't wait for you  
She has so many better things to do  
I always thought she knew  
But now I felt the trigger in my shoe

**But how many times I should have faded out that thought  
And how much time we could have spent alone inside my heart**

Well now it's kind of late  
And I should feel embarrassed about that state  
My love has learned a lot  
Taking noes is still her weakest spot

**But how many times I should have faded out that thought  
And how much time we could have spent alone inside my heart**

Ah...  
Ah...

My love won't wait for you  
Waiting's not the kind of thing she'll do
