

SAILORS

**Send him in to the sailors
I've been holding in too long
Send him in to the sailors
Ask the sea to carry on**

Bring my cold, lonely heart
And light him a candle in the dark

**Send him in to the sailors
I've been holding in too long
Send him in to the sailors
Ask the sea to carry on**

Say some words to calm him down
Find him a shelter in the storm

**Send him in to the sailors
I've been holding in too long
Send him in to the sailors
Ask the sea to carry on**

Don't be mad
There's no other way
Can't be wrong
If you don't care about me anymore

**Send him in to the sailors
Send him in to the sailors**
