

TOO FAST

Get all you can
And join me
On my ride home

Wait for me
Outside
Just another minute

**You have been running
Went too fast
Missed it all
Love has been wondering
Where you are
Where you go**

Please, take some time
To slow down
To see I'm right there
Holding your broken heart
And I won't let it go

**You have been running
Went too fast
Missed it all
I've been wondering
Where you are
Where you go
Held your heart
Held it long
Let it go
You're still running
Way too fast**

I let it go

Hold my hand
Hold it long
Till we are
Till we are
On our way

Get it all
Get it all
