

WELCOME BACK

I'm riding slowly
To see the time go by
I wanna take back
Everything I divined

Time is passing
I'm waving safe and sound
To new beginnings
Until I am put down

**How bout a welcome back
How bout a welcome back
How bout a welcome back**

My thoughts are trembling
Your heart is on the run
We are descending
Wow

You are furious
My water cries out loud
You stole my chances
There is no way out

**How bout a welcome back
How bout a welcome back
How bout a welcome back**

I'm riding slowly
I'm going with the time
There is a cool breeze
But i'm still filled with fire

**How bout a welcome back
How bout a welcome back
How bout a welcome back**
